Subject: FELDHAMER 2009 reference from my EndNote library
Attachments: Feldhamer et al 2009 - prey of 8 species of ba.pdf

Dear Chris

Great to meet with you again last week. As promised here are two papers on bats (- I will send the other under separate cover as that is how my reference library works)

FELDHAMER, G. A. (2009). "Prey Consumed by Eight Species of Insectivorous Bats from Southern Illinois." Am. Midi. Nat. **162**: 43-51.

I hope this helps – we should schedule some further meetings with you shortly

Best regards

Camilla
